

"Making A Difference In The Game"

CENTRAL CONNECTICUT BOARD #6 of Approved Basketball Officials

One Rule + One Mechanic + One Interpretation = the Board #6 Way

INJURED/BLEEDING PLAYER

- Do not touch an injured/bleeding player.
- Assess if player needs immediate or delayed assistance
- If immediate assistance – blow whistle and request assistance from medical or athletic trainer personnel
- If delayed assistance – hold whistle until ball becomes dead or action is not moving forward toward a possible score and then request assistance from medical or athletic trainer personnel
- Allow coaches and medical people ample time to attend to the player. Never rush the medical help.
- When coach/team personnel are finished attending to the injured player, ask coach if such player will remain in game or be substituted.
- Reminders –
 - Player can remain in game, at the expense of a time-out.
 - Follow time-out mechanics if time-out is requested at that time.
 - Player must be ready to play at the end of the time out.
 - Opposing team may also substitute at this time
